ENVIRONMENTAL POLICY

The Directors of the company consider the environmental effects of all aspects of the business and that the protection of the environment is of primary importance.

The company is committed to preventing pollution and minimising adverse affects on the environment from its activities, processes and services. The company Integrated Management Systems and procedures have been developed and implemented.

The company identify the necessary resources and training requirements for sustaining continued improvement in environmental protection, ensuring all employees and contractors are aware of how to work in an environmentally responsible manner

The company minimise and recycle waste through the use of processes, practices, materials and products, which avoid, reduce or control pollution.

The Directors of the company have developed and issued objectives for the management of the environment, these can only be achieved through the support and co – operation of employees, contractors and all other persons who work for us or use our premises. These objectives are reviewed and continuously monitored for compliance and the continual improvement in environmental performance.

The company encourage contractors and suppliers to adopt the company policy and principles.

The company employs a Health and Safety Professional (Health, Safety, Quality & Environment Manager) in order to ensure that it is adequately discharging its responsibilities for managing the environmental issues relating to employees, contractors and the public.

The company shall meet and where practicable exceed the requirements of current legislation, Network Rail standards and support the Railway Group Environmental Plan and Policy statements and its Clients environmental policy and procedures and any other requirements which the company subscribes to including ISO 14001 for mutual continual improvement

The contents of this statement will be kept up to date to reflect the changes in the nature of the activities and the size or complexity of the company. The Directors shall review its effectiveness as appropriate and in any case, at least annually.
